23 fessional engineering association or organi-  
24 zation;

1 (ix) a member of a recognized profes-  
2 sional association or organization rep-  
3 resenting flood hazard determination firms;

4 (x) a representative of State national  
5 flood insurance coordination offices;

6 (xi) representatives of two local gov-  
7 ernments, at least one of whom is a local  
8 levee flood manager or executive, des-  
9 ignated by the Federal Emergency Man-  
10 agement Agency as Cooperating Technical  
11 Partners; and

12 (xii) representatives of two State gov-  
13 ernments designated by the Federal Emer-  
14 gency Management Agency as Cooperating  
15 Technical States.

16 (2) QUALIFICATIONS.—Members of the Council  
17 shall be appointed based on their demonstrated  
18 knowledge and competence regarding surveying, car-  
19 tography, remote sensing, geographic information  
20 systems, or the technical aspects of preparing and  
21 using flood insurance rate maps. In appointing  
22 members under paragraph (1)(H), the Administrator  
23 shall ensure that the membership of the Council has  
24 a balance of Federal, State, local, and private mem-  
25 bers, and includes an adequate number of represent-

1 atives from the States with coastline on the Gulf of  
2 Mexico and other States containing areas identified  
3 by the Administrator of the Federal Emergency  
4 Management Agency as at high-risk for flooding or  
5 special flood hazard areas.

6 (c) DUTIES.—

7 (1) NEW MAPPING STANDARDS.—Not later than  
8 the expiration of the 12-month period beginning  
9 upon the date of the enactment of this Act, the  
10 Council shall develop and submit to the Adminis-  
11 trator and the Congress proposed new mapping  
12 standards for 100-year flood insurance rate maps  
13 used under the national flood insurance program  
14 under the National Flood Insurance Act of 1968. In  
15 developing such proposed standards the Council  
16 shall—

17 (A) ensure that the flood insurance rate  
18 maps reflect true risk, including graduated risk  
19 that better reflects the financial risk to each  
20 property; such reflection of risk should be at  
21 the smallest geographic level possible (but not  
22 necessarily property-by-property) to ensure that  
23 communities are mapped in a manner that  
24 takes into consideration different risk levels  
25 within the community;

1           (B) ensure the most efficient generation,  
2 display, and distribution of flood risk data,  
3 models, and maps where practicable through  
4 dynamic digital environments using spatial  
5 database technology and the Internet;

6           (C) ensure that flood insurance rate maps  
7 reflect current hydrologic and hydraulic data,  
8 current land use, and topography, incorporating  
9 the most current and accurate ground and  
10 bathymetric elevation data;

11           (D) determine the best ways to include in  
12 such flood insurance rate maps levees, decerti-  
13 fied levees, and areas located below dams, in-  
14 cluding determining a methodology for ensuring  
15 that decertified levees and other protections are  
16 included in flood insurance rate maps and their  
17 corresponding flood zones reflect the level of  
18 protection conferred;

19           (E) consider how to incorporate restored  
20 wetlands and other natural buffers into flood  
21 insurance rate maps, which may include wet-  
22 lands, groundwater recharge areas, erosion  
23 zones, meander belts, endangered species habi-  
24 tat, barrier islands and shoreline buffer fea-  
25 tures, riparian forests, and other features;

1 (F) consider whether to use vertical posi-  
2 tioning (as defined by the Administrator) for  
3 flood insurance rate maps;

4 (G) ensure that flood insurance rate maps  
5 differentiate between a property that is located  
6 in a flood zone and a structure located on such  
7 property that is not at the same risk level for  
8 flooding as such property due to the elevation  
9 of the structure;

10 (H) ensure that flood insurance rate maps  
11 take into consideration the best scientific data  
12 and potential future conditions (including pro-  
13 jections for sea level rise); and

14 (I) consider how to incorporate the new  
15 standards proposed pursuant to this paragraph  
16 in existing mapping efforts.

17 (2) ONGOING DUTIES.—The Council shall, on  
18 an ongoing basis, review the mapping protocols de-  
19 veloped pursuant to paragraph (1), and make rec-  
20 ommendations to the Administrator when the Coun-  
21 cil determines that mapping protocols should be al-  
22 tered.

23 (3) MEETINGS.—In carrying out its duties  
24 under this section, the Council shall consult with  
25 stakeholders through at least 4 public meetings an-

1 nually, and shall seek input of all stakeholder inter-  
2 ests including State and local representatives, envi-  
3 ronmental and conservation organizations, insurance  
4 industry representatives, advocacy groups, planning  
5 organizations, and mapping organizations.

6 (d) PROHIBITION ON COMPENSATION.—Members of  
7 the Council shall receive no additional compensation by  
8 reason of their service on the Council.

9 (e) CHAIRPERSON.—The Administrator shall serve as  
10 the Chairperson of the Council.

11 (f) STAFF.—

12 (1) FEMA.—Upon the request of the Council,  
13 the Administrator may detail, on a nonreimbursable  
14 basis, personnel of the Federal Emergency Manage-  
15 ment Agency to assist the Council in carrying out its  
16 duties.

17 (2) OTHER FEDERAL AGENCIES.—Upon request  
18 of the Council, any other Federal agency that is a  
19 member of the Council may detail, on a non-reim-  
20 bursable basis, personnel to assist the Council in  
21 carrying out its duties.

22 (g) POWERS.—In carrying out this section, the Coun-  
23 cil may hold hearings, receive evidence and assistance, pro-  
24 vide information, and conduct research, as the Council  
25 considers appropriate.

1 (h) TERMINATION.—The Council shall terminate  
2 upon the expiration of the 5-year period beginning on the  
3 date of the enactment of this Act.

4 (i) MORATORIUM ON FLOOD MAP CHANGES.—

5 (1) MORATORIUM.—Except as provided in para-  
6 graph (2) and notwithstanding any other provision  
7 of this title, the National Flood Insurance Act of  
8 1968, or the Flood Disaster Protection Act of 1973,  
9 during the period beginning upon the date of the en-  
10 actment of this Act and ending upon the submission  
11 by the Council to the Administrator and the Con-  
12 gress of the proposed new mapping standards re-  
13 quired under subsection (c)(1), the Administrator  
14 may not make effective any new or updated rate  
15 maps for flood insurance coverage under the na-  
16 tional flood insurance program that were not in ef-  
17 fect for such program as of such date of enactment,  
18 or otherwise revise, update, or change the flood in-  
19 surance rate maps in effect for such program as of  
20 such date.

21 (2) LETTERS OF MAP CHANGE.—During the pe-  
22 riod described in paragraph (1), the Administrator  
23 may revise, update, and change the flood insurance  
24 rate maps in effect for the national flood insurance  
25 program only pursuant to a letter of map change

1 (including a letter of map amendment, letter of map  
2 revision, and letter of map revision based on fill).

3 **SEC. 3007. FEMA INCORPORATION OF NEW MAPPING PRO-**  
4 **TOCOLS.**

5 (a) NEW RATE MAPPING STANDARDS.—Not later  
6 than the expiration of the 6-month period beginning upon  
7 submission by the Technical Mapping Advisory Council  
8 under section 3006 of the proposed new mapping stand-  
9 ards for flood insurance rate maps used under the national  
10 flood insurance program developed by the Council pursu-  
11 ant to section 3006(c), the Administrator of the Federal  
12 Emergency Management Agency (in this section referred  
13 to as the “Administrator”) shall establish new standards  
14 for such rate maps based on such proposed new standards  
15 and the recommendations of the Council.

16 (b) REQUIREMENTS.—The new standards for flood  
17 insurance rate maps established by the Administrator pur-  
18 suant to subsection (a) shall—

19 (1) delineate and include in any such rate  
20 maps—

21 (A) all areas located within the 100-year  
22 flood plain; and

23 (B) areas subject to graduated and other  
24 risk levels, to the maximum extent possible;

25 (2) ensure that any such rate maps—

1 (A) include levees, including decertified levees,  
2 and the level of protection they confer;

3 (B) reflect current land use and topography  
4 and incorporate the most current and accurate  
5 ground level data;

6 (C) take into consideration the impacts  
7 and use of fill and the flood risks associated  
8 with altered hydrology;

9 (D) differentiate between a property that  
10 is located in a flood zone and a structure located  
11 on such property that is not at the same  
12 risk level for flooding as such property due to  
13 the elevation of the structure;

14 (E) identify and incorporate natural features  
15 and their associated flood protection benefits  
16 into mapping and rates; and

17 (F) identify, analyze, and incorporate the  
18 impact of significant changes to building and  
19 development throughout any river or coastal  
20 water system, including all tributaries, which  
21 may impact flooding in areas downstream; and

22 (3) provide that such rate maps are developed  
23 on a watershed basis.

24 (c) REPORT.—If, in establishing new standards for  
25 flood insurance rate maps pursuant to subsection (a) of

1 this section, the Administrator does not implement all of  
2 the recommendations of the Council made under the pro-  
3 posed new mapping standards developed by the Council  
4 pursuant to section 3006(c), upon establishment of the  
5 new standards the Administrator shall submit a report to  
6 the Committee on Financial Services of the House of Rep-  
7 resentatives and the Committee on Banking, Housing, and  
8 Urban Affairs of the Senate specifying which such rec-  
9 ommendations were not adopted and explaining the rea-  
10 sons such recommendations were not adopted.

11 (d) IMPLEMENTATION.—The Administrator shall, not  
12 later than the expiration of the 6-month period beginning  
13 upon establishment of the new standards for flood insur-  
14 ance rate maps pursuant to subsection (a) of this section,  
15 commence use of the new standards and updating of flood  
16 insurance rate maps in accordance with the new stand-  
17 ards. Not later than the expiration of the 10-year period  
18 beginning upon the establishment of such new standards,  
19 the Administrator shall complete updating of all flood in-  
20 surance rate maps in accordance with the new standards,  
21 subject to the availability of sufficient amounts for such  
22 activities provided in appropriation Acts.

23 (e) TEMPORARY SUSPENSION OF MANDATORY PUR-  
24 CHASE REQUIREMENT FOR CERTAIN PROPERTIES.—

1           (1) SUBMISSION OF ELEVATION CERTIFI-  
2           CATE.—Subject to paragraphs (2) and (3) of this  
3           subsection, subsections (a), (b), and (e) of section  
4           102 of the Flood Disaster Protection Act of 1973  
5           (42 U.S.C. 4012a), and section 202(a) of such Act,  
6           shall not apply to a property located in an area des-  
7           ignated as having a special flood hazard if the owner  
8           of such property submits to the Administrator an  
9           elevation certificate for such property showing that  
10          the lowest level of the primary residence on such  
11          property is at an elevation that is at least three feet  
12          higher than the elevation of the 100-year flood plain.

13          (2) REVIEW OF CERTIFICATE.—The Adminis-  
14          trator shall accept as conclusive each elevation cer-  
15          tificate submitted under paragraph (1) unless the  
16          Administrator conducts a subsequent elevation sur-  
17          vey and determines that the lowest level of the pri-  
18          mary residence on the property in question is not at  
19          an elevation that is at least three feet higher than  
20          the elevation of the 100-year flood plain. The Ad-  
21          ministrators shall provide any such subsequent ele-  
22          vation survey to the owner of such property.

23          (3) DETERMINATIONS FOR PROPERTIES ON  
24          BORDERS OF SPECIAL FLOOD HAZARD AREAS.—

1           (A) EXPEDITED DETERMINATION.—In the  
2 case of any survey for a property submitted to  
3 the Administrator pursuant to paragraph (1)  
4 showing that a portion of the property is lo-  
5 cated within an area having special flood haz-  
6 ards and that a structure located on the prop-  
7 erty is not located within such area having spe-  
8 cial flood hazards, the Administrator shall expe-  
9 ditiously process any request made by an owner  
10 of the property for a determination pursuant to  
11 paragraph (2) or a determination of whether  
12 the structure is located within the area having  
13 special flood hazards.

14           (B) PROHIBITION OF FEE.—If the Admin-  
15 istrator determines pursuant to subparagraph  
16 (A) that the structure on the property is not lo-  
17 cated within the area having special flood haz-  
18 ards, the Administrator shall not charge a fee  
19 for reviewing the flood hazard data and shall  
20 not require the owner to provide any additional  
21 elevation data.

22           (C) SIMPLIFICATION OF REVIEW PROC-  
23 ESS.—The Administrator shall collaborate with  
24 private sector flood insurers to simplify the re-  
25 view process for properties described in sub-

1 paragraph (A) and to ensure that the review  
2 process provides for accurate determinations.

3 (4) **TERMINATION OF AUTHORITY.**—This sub-  
4 section shall cease to apply to a property on the date  
5 on which the Administrator updates the flood insur-  
6 ance rate map that applies to such property in ac-

9 Section 1360 of the National Flood Insurance Act of  
10 1968 (42 U.S.C. 4101) is amended by adding at the end  
11 the following new subsection:

12 “(k) **TREATMENT OF LEVEES.**—The Administrator  
13 may not issue flood insurance maps, or make effective up-  
14 dated flood insurance maps, that omit or disregard the  
15 actual protection afforded by an existing levee, floodwall,  
16 pump or other flood protection feature, regardless of the  
17 accreditation status of such feature.”.

18 **SEC. 3009. PRIVATIZATION INITIATIVES.**

19 (a) **FEMA AND GAO REPORTS.**—Not later than the  
20 expiration of the 18-month period beginning on the date  
21 of the enactment of this Act, the Administrator of the  
22 Federal Emergency Management Agency and the Comp-  
23 troller General of the United States shall each conduct a  
24 separate study to assess a broad range of options, meth-  
25 ods, and strategies for privatizing the national flood insur-

1   ance program and shall each submit a report to the Com-  
2   mittee on Financial Services of the House of Representa-

7           (1) AUTHORITY.—The Administrator of the  
8   Federal Emergency Management Agency may carry  
9   out such private risk-management initiatives under

11  istrator considers appropriate to determine the ca-  
12  pacity of private insurers, reinsurers, and financial  
13  markets to assist communities, on a voluntary basis  
14  only, in managing the full range of financial risks  
15  associated with flooding.

16          (2) ASSESSMENT.—Not later than the expira-  
17  tion of the 12-month period beginning on the date  
18  of the enactment of this Act, the Administrator shall  
19  assess the capacity of the private reinsurance, cap-  
20  ital, and financial markets by seeking proposals to  
21  assume a portion of the program’s insurance risk  
22  and submit to the Congress a report describing the  
23  response to such request for proposals and the re-  
24  sults of such assessment.

2 Administrator shall develop a protocol to provide for  
3 the release of data sufficient to conduct the assess-  
4 ment required under paragraph (2).

20 ance program from private market insurance, reinsurance,  
21 and capital market sources at rates and on terms deter-  
22 mined by the Administrator to be reasonable and appro-  
23 priate in an amount sufficient to maintain the ability of  
24 the program to pay claims and that minimizes the likeli-

2 provided under section 1309.”;

15 **SEC. 3031. STUDY ON GRADUATED RISK.**

16          (a) STUDY.—The National Academy of Sciences shall  
17 conduct a study exploring methods for understanding  
18 graduated risk behind levees and the associated land de-  
19 velopment, insurance, and risk communication dimensions,  
20 which shall—

21           (1) research, review, and recommend current

2 value, balancing cost, scientific integrity, and the in-  
3 herent uncertainties associated with all aspects of  
4 the loss estimate, including geotechnical engineering,  
5 flood frequency estimates, economic value, and direct  
6 damages;

7           (3) research, review, and identify current best  
8 floodplain management and land use practices be-  
9 hind levees that effectively balance social, economic,  
10 and environmental considerations as part of an over-  
11 all flood risk management strategy;

12           (4) identify examples where such practices have  
13 proven effective and recommend methods and proc-  
14 esses by which they could be applied more broadly  
15 across the United States, given the variety of dif-  
16 ferent flood risks, State and local legal frameworks,  
17 and evolving judicial opinions;

18           (5) research, review, and identify a variety of  
19 flood insurance pricing options for flood hazards be-  
20 hind levees which are actuarially sound and based on  
21 the flood risk data developed using the top three  
22 best value approaches identified pursuant to para-  
23 graph (1);

24           (6) evaluate and recommend methods to reduce  
25 insurance costs through creative arrangements be-

1 for determining that a flood event has commenced or is  
2 in progress for purposes of flood insurance coverage made  
3 available under the national flood insurance program  
4 under the National Flood Insurance Act of 1968 and for  
5 providing public notification that such an event has com-  
6 menced or is in progress. In such review, the Adminis-  
7 trator shall take into consideration the effects and implica-  
8 tions that weather conditions, such as rainfall, snowfall,  
9 projected snowmelt, existing water levels, and other condi-  
10 tions have on the determination that a flood event has  
11 commenced or is in progress. Not later than the expiration  
12 of the 6-month period beginning upon the date of the en-  
13 actment of this Act, the Administrator shall submit a re-  
14 port to the Congress setting forth the results and conclu-  
15 sions of the review undertaken pursuant to this section  
16 and any actions undertaken or proposed actions to be  
17 taken to provide for a more precise and technical deter-  
18 mination that a flooding event has commenced or is in  
19 progress.

20 **SEC. 3033. STUDY ON REPAYING FLOOD INSURANCE DEBT.**

21 Not later than the expiration of the 6-month period  
22 beginning on the date of the enactment of this Act, the  
23 Administrator of the Federal Emergency Management  
24 Agency shall submit a report to the Congress setting forth  
25 a plan for repaying within 10 years all amounts, including

1 any amounts previously borrowed but not yet repaid, owed  
2 pursuant to clause (2) of subsection (a) of section 1309  
3 of the National Flood Insurance Act of 1968 (42 U.S.C.  
4 4016(a)(2)).

6 No cause of action shall exist and no claim may be  
7 brought against the United States for violation of any no-  
8 tification requirement imposed upon the United States by  
9 this title or any amendment made by this title.

10 **SEC. 3035. AUTHORITY FOR THE CORPS OF ENGINEERS TO**  
11 **PROVIDE SPECIALIZED OR TECHNICAL SERV-**  
12 **ICES.**

13 (a) **IN GENERAL.**—Notwithstanding any other provi-  
14 sion of law, upon the request of a State or local govern-  
15 ment, the Secretary of the Army may evaluate a levee sys-  
16 tem that was designed or constructed by the Secretary for  
17 the purposes of the National Flood Insurance Program es-  
18 tablished under chapter 1 of the National Flood Insurance  
19 Act of 1968 (42 U.S.C. 4011 et seq.).

## 21 **PART 2—STATE IMPLEMENTATION**

### 22 **SEC. 4221. NEGOTIATION AND APPROVAL OF CONTRACTS.**

23 (a) STATE PUBLIC SAFETY BROADBAND OFFICES.—  
24 Each State desiring to establish a State public safety

1 broadband communications network shall establish or des-  
2 ignate a State Public Safety Broadband Office.

3 (b) NEGOTIATION BY STATES.—

4 (1) IN GENERAL.—Each State Public Safety  
5 Broadband Office shall—

6 (A) use the baseline request for proposals  
7 transmitted under section 4203(b)(2) to develop  
8 a request for proposals for the construction,  
9 management, maintenance, and operation of a  
10 State public safety broadband communications  
11 network;

12 (B) negotiate a contract with a private-sec-  
13 tor entity for such construction, management,  
14 maintenance, and operation;

15 (C) transmit such contract to the Adminis-

21 oping a request for proposals under paragraph  
22 (1)(A) and negotiating a proposed contract under  
23 paragraph (1)(B), the State Public Safety  
24 Broadband Office shall take into consideration the  
25 following:

1           (A) The most efficient and effective use  
2           and integration by State, local, and tribal pro-  
3           viders of public safety services within such  
4           State of the spectrum licensed to the Adminis-  
5           trator and the infrastructure, equipment, and  
6           other architecture associated with the State  
7           public safety broadband communications net-  
8           work to satisfy the wireless communications  
9           and data services needs of such providers.

10           (B) The particular assets and specialized  
11           needs of such providers. Such assets may in-  
12           clude available towers and infrastructure. Such  
13           needs may include the projected number of  
14           users, preferred buildout timeframes, special  
15           coverage needs, special hardening, reliability,  
16           security, and resiliency needs, local user priority  
17           assignments, and integration needs of public  
18           safety answering points and emergency oper-  
19           ations centers.

20           (C) Whether any entities that are not pro-  
21           viders of public safety services should have  
22           emergency access to the State public safety  
23           broadband communications network, as de-  
24           scribed in subsection (e).

1 (D) Whether the State public safety  
2 broadband communications network provides  
3 for the selection on a localized basis of network  
4 options that remain consistent with the Plan.

5 (E) How to ensure the reliability, security,  
6 and resiliency of the State public safety  
7 broadband communications network, including  
8 through measures for—

9 (i) protecting and monitoring the cy-  
10 bersecurity of the network; and

11 (ii) managing supply chain risks to  
12 the network.

13 (3) PARTNERSHIPS.—

14 (A) IN GENERAL.—In choosing from  
15 among the entities that respond to the request  
16 for proposals developed under paragraph  
17 (1)(A), the State Public Safety Broadband Of-  
18 fice shall—

19 (i) select a provider of commercial mo-  
20 bile service or commercial mobile data  
21 service; and

22 (ii) give additional consideration to  
23 providers of commercial mobile service or  
24 commercial mobile data service whose pro-

1            proposals include a partnership with a utility  
2            provider.

3            (B) JOINT VENTURES.—For purposes of  
4            subparagraph (A), a joint venture that includes  
5            a provider of commercial mobile service or com-  
6            mercial mobile data service shall be considered  
7            to be such a provider.

8            (c) REVIEW BY ADMINISTRATOR.—

9            (1) IN GENERAL.—Upon receiving from a State  
10          Public Safety Broadband Office a contract nego-  
11          tiated under subsection (b), the Administrator shall  
12          either approve or disapprove such contract but may  
13          not make any changes to its terms.

14          (2) DISAPPROVAL.—In the case of disapproval  
15          under paragraph (1), the State Public Safety  
16          Broadband Office may renegotiate the contract, ne-  
17          gotiate a contract with another entity that re-  
18          sponded to the Office’s request for proposals, or  
19          issue a new request for proposals.

20          (d) PUBLIC-PRIVATE PARTNERSHIPS.—Notwith-  
21          standing any limitation in section 337 of the Communica-  
22          tions Act of 1934 (47 U.S.C. 337), a contract entered into

24          private entity under subsection (b)(1)(D) may permit—

1           (1) such entity to obtain access to the spectrum  
2 licensed to the Administrator in such State for serv-  
3 ices that are not public safety services; or

4           (2) the State Public Safety Broadband Office to  
5 share with such entity equipment or infrastructure  
6 of the State public safety broadband communications  
7 network, including antennas and towers.

8           (e) EMERGENCY ACCESS BY NON-PUBLIC SAFETY  
9 ENTITIES.—

10           (1) IN GENERAL.—Notwithstanding any limita-  
11 tion in section 337 of the Communications Act of

13 terms of a contract entered into under subsection  
14 (b)(1)(D) for the construction, management, mainte-  
15 nance, and operation of a State public safety  
16 broadband communications network, the Adminis-  
17 trator may enter into agreements with entities in  
18 such State that are not providers of public safety  
19 services to permit such entities to obtain access on  
20 a secondary, preemptible basis to the State public  
21 safety broadband communications network of such  
22 State in order to facilitate interoperability between  
23 such entities and providers of public safety services  
24 in protecting the safety of life, health, and property  
25 during emergencies and during preparation for and

1 recovery from emergencies, including during emer-  
2 gency drills, exercises, and tests.

3 (2) PREEMPTION.—The Administrator shall en-  
4 sure that, under any agreement entered into under  
5 paragraph (1), providers of public safety services  
6 may preempt use of the State public safety  
7 broadband communications network by an entity  
8 with which the Administrator has entered into such  
9 agreement.

10 (f) MULTI-STATE NEGOTIATION.—The State Public  
11 Safety Broadband Offices of more than one State may  
12 form a consortium for purposes of developing a request  
13 for proposals and negotiating and entering into a contract  
14 for the construction, management, maintenance, and oper-  
15 ation of a State public safety broadband communications  
16 network for such States. While such Offices remain in the  
17 consortium, such States shall be treated as a single State,  
18 such Offices shall be treated as a single Office of a single  
19 State, and such network shall be treated as the State pub-  
20 lic safety broadband communications network of a single  
21 State.

22 **SEC. 4222. STATE IMPLEMENTATION GRANT PROGRAM.**

23 (a) IN GENERAL.—From amounts made available

15 the Assistant Secretary.

16 (2) WAIVER.—The Assistant Secretary may  
17 waive, in whole or in part, the requirements of para-

20 (d) PROGRAMMATIC REQUIREMENTS.—Not later  
21 than 1 year after the date of the adoption of the Plan  
22 by the Commission under section 4202(e)(1)(A), the As-  
23 sistant Secretary, in consultation with the Board, shall es-  
24 tablish requirements relating to the grant program to be  
25 carried out under this section, including the following:

2           section (c)(1).

3           (2) Determining the scope of eligible activities  
4           for grant funding under this section.

5           (3) Prioritizing grants for activities that ensure  
6           coverage in rural as well as urban areas.

13 subsection (c)(1) and any amounts in the State Implemen-  
14 tation Fund that are not necessary to reimburse the gen-  
15 eral fund of the Treasury for such borrowed amounts shall

7 1-1 Advancement Act of 2011”.

8 **SEC. 4262. FINDINGS.**

9 Congress finds that—

10 (1) for the sake of the public safety of our Na-  
11 tion, a universal emergency service number (9-1-1)  
12 that is enhanced with the most modern and state-of-  
13 the-art telecommunications capabilities possible, in-  
14 cluding voice, data, and video communications,  
15 should be available to all citizens wherever they live,  
16 work, and travel;

17 (2) a successful migration to Next Generation  
18 9-1-1 service communications systems will require  
19 greater Federal, State, and local government re-  
20 sources and coordination;

21 (3) any funds that are collected from fees im-  
22 posed on consumer bills for the purposes of funding  
23 9-1-1 services, enhanced 9-1-1 services, or Next  
24 Generation 9-1-1 services should only be used for  
25 the purposes for which the funds are collected;

1           (4) it is a national priority to foster the migra-  
2           tion from analog, voice-centric 9-1-1 and current  
3           generation emergency communications systems to a  
4           21st century, Next Generation, IP-based emergency  
5           services model that embraces a wide range of voice,  
6           video, and data applications;

7           (5) ensuring 9-1-1 access for all citizens in-  
8           cludes improving access to 9-1-1 systems for the  
9           deaf, hard of hearing, deaf-blind, and individuals  
10          with speech disabilities, who increasingly commu-  
11          nicate with non-traditional text, video, and instant-  
12          messaging communications services, and who expect  
13          those services to be able to connect directly to 9-1-  
14          1 systems;

15          (6) a coordinated public educational effort on  
16          current and emerging 9-1-1 system capabilities and  
17          proper use of the 9-1-1 system is essential to the  
18          operation of effective 9-1-1 systems;

19          (7) Federal policies and funding should enable  
20          the transition to Internet Protocol-based (IP-based)  
21          Next Generation 9-1-1 systems, and Federal 9-1-  
22          1 and emergency communications laws and regula-  
23          tions must keep pace with rapidly changing tech-  
24          nology to ensure an open and competitive 9-1-1 en-

1 vironment based on the most advanced technology  
2 available; and

3 (8) Federal policies and grant programs should  
4 reflect the growing convergence and integration of  
5 emergency communications technology, such that  
6 State interoperability plans and Federal funding in  
7 support of such plans are made available for all as-  
8 pects of Next Generation 9–1–1 service and emer-  
9 gency communications systems.

10 **SEC. 4263. PURPOSES.**

11 The purposes of this part are—

12 (1) to focus Federal policies and funding pro-  
13 grams to ensure a successful migration from voice-  
14 centric 9–1–1 systems to IP-enabled, Next Genera-  
15 tion 9–1–1 emergency response systems that use  
16 voice, data, and video services to greatly enhance the  
17 capability of 9–1–1 and emergency response services;

18 (2) to ensure that technologically advanced 9–  
19 1–1 and emergency communications systems are  
20 universally available and adequately funded to serve  
21 all Americans; and

25 “(j) RELOCATION PRIORITIZED OVER SHARING.—

1           “(1) IN GENERAL.—In evaluating a band of  
2 frequencies for possible reallocation for exclusive  
3 non-Federal use or shared use, the NTIA shall give  
4 priority to options involving reallocation of the band  
5 for exclusive non-Federal use and shall choose op-  
6 tions involving shared use only when it determines,  
7 in consultation with the Director of the Office of  
8 Management and Budget, that relocation of a Fed-  
9 eral entity from the band is not feasible because of  
10 technical or cost constraints.

11           “(2) NOTIFICATION OF CONGRESS WHEN SHAR-  
12 ING CHOSEN.—If the NTIA determines under para-  
13 graph (1) that relocation of a Federal entity from

21 Housing and Community Development Act of 1992 is  
22 amended by adding after section 1326 (12 U.S.C. 4546)  
23 the following new section:

1 **“SEC. 1327. ENTERPRISE GUARANTEE FEES.**

2 “(a) DEFINITIONS.—For purposes of this section, the  
3 following definitions shall apply:

4 “(1) GUARANTEE FEE.—The term ‘guarantee  
5 fee’—

6 “(A) means a fee described in subsection  
7 (b); and

8 “(B) includes—

9 “(i) the guaranty fee charged by the  
10 Federal National Mortgage Association  
11 with respect to mortgage-backed securities;  
12 and

13 “(ii) the management and guarantee  
14 fee charged by the Federal Home Loan  
15 Mortgage Corporation with respect to par-  
16 ticipation certificates.

17 “(2) AVERAGE FEES.—The term ‘average fees’  
18 means the average contractual fee rate of single-  
19 family guaranty arrangements by an enterprise en-  
20 tered into during 2011, plus the recognition of any  
21 up-front cash payments over an estimated average  
22 life, expressed in terms of basis points. Such defini-  
23 tion shall be interpreted in a manner consistent with  
24 the annual report on guarantee fees by the Federal  
25 Housing Finance Agency.

26 “(b) INCREASE.—

1           “(1) IN GENERAL.—

2                   “(A) PHASED INCREASE REQUIRED.—Sub-  
3           ject to subsection (c), the Director shall require  
4           each enterprise to charge a guarantee fee in  
5           connection with any guarantee of the timely  
6           payment of principal and interest on securities,  
7           notes, and other obligations based on or backed  
8           by mortgages on residential real properties de-  
9           signed principally for occupancy of from 1 to 4  
10          families, consummated after the date of enact-  
11          ment of this section.

12                   “(B) AMOUNT.—The amount of the in-  
13          crease required under this section shall be de-  
14          termined by the Director to appropriately re-  
15          flect the risk of loss, as well the cost of capital  
16          allocated to similar assets held by other fully  
17          private regulated financial institutions, but such  
18          amount shall be not less than an average in-  
19          crease of 10 basis points for each origination  
20          year or book year above the average fees im-  
21          posed in 2011 for such guarantees. The Direc-  
22          tor shall prohibit an enterprise from offsetting  
23          the cost of the fee to mortgage originators, bor-  
24          rowers, and investors by decreasing other

1 charges, fees, or premiums, or in any other  
2 manner.

3 “(2) AUTHORITY TO LIMIT OFFER OF GUAR-  
4 ANTEE.—The Director shall prohibit an enterprise  
5 from consummating any offer for a guarantee to a  
6 lender for mortgage-backed securities, if—

7 “(A) the guarantee is inconsistent with the  
8 requirements of this section; or

9 “(B) the risk of loss is allowed to increase,  
10 through lowering of the underwriting standards  
11 or other means, for the primary purpose of  
12 meeting the requirements of this section.

13 “(3) DEPOSIT IN TREASURY.—To the extent  
14 that amounts are received from fee increases im-  
15 posed under this section that are necessary to com-  
16 ply with the minimum increase required by this sub-  
17 section, such amounts shall be deposited directly into  
18 the United States Treasury, and shall be available  
19 only to the extent provided in subsequent appropria-  
20 tions Acts. Such fees shall not be considered a reim-  
21 bursement to the Federal Government for the costs  
22 or subsidy provided to an enterprise.

23 “(c) PHASE-IN.—

24 “(1) IN GENERAL.—The Director may provide  
25 for compliance with subsection (b) by allowing each

1 enterprise to increase the guarantee fee charged by  
2 the enterprise gradually over the 2-year period be-  
3 ginning on the date of enactment of this section, in  
4 a manner sufficient to comply with this section. In  
5 determining a schedule for such increases, the Direc-  
6 tor shall—

7 “(A) provide for uniform pricing among  
8 lenders;

9 “(B) provide for adjustments in pricing  
10 based on risk levels; and

11 “(C) take into consideration conditions in  
12 financial markets.

13 “(2) RULE OF CONSTRUCTION.—Nothing in  
14 this subsection shall be interpreted to undermine the  
15 minimum increase required by subsection (b).

16 “(d) INFORMATION COLLECTION AND ANNUAL  
17 ANALYSIS.—The Director shall require each enterprise to  
18 provide to the Director, as part of its annual report sub-  
19 mitted to Congress—

20 “(1) a description of—

21 “(A) changes made to up-front fees and  
22 annual fees as part of the guarantee fees nego-  
23 tiated with lenders; and

1           “(B) changes to the riskiness of the new  
2           borrowers compared to previous origination  
3           years or book years; and

4           “(2) an assessment of how the changes in the  
5           guarantee fees described in paragraph (1) met the  
6           requirements of subsection (b).

7           “(e) ENFORCEMENT.—

8           “(1) REQUIRED ADJUSTMENTS.—Based on the  
9           information from subsection (d) and any other infor-  
10          mation the Director deems necessary, the Director  
11          shall require an enterprise to make adjustments in  
12          its guarantee fee in order to be in compliance with  
13          subsection (b).

14          “(2) NONCOMPLIANCE PENALTY.—An enter-  
15          prise that has been found to be out of compliance  
16          with subsection (b) for any 2 consecutive years shall  
17          be precluded from providing any guarantee for a pe-  
18          riod, determined by rule of the Director, but in no  
19          case less than 1 year.

20          “(3) RULE OF CONSTRUCTION.—Nothing in  
21          this subsection shall be interpreted as preventing the  
22          Director from initiating and implementing an en-  
23          forcement action against an enterprise, at a time the  
24          Director deems necessary, under other existing en-  
25          forcement authority.

1       “(f) **AUTHORITY FOR OTHER INCREASES.**—Nothing  
2 in this section may be construed to prohibiting, restricting,  
3 or limiting increases, other than pursuant to this section,  
4 in the guarantee fees charged by an enterprise.

5       “(g) **EXPIRATION.**—The provisions of this section  
6 shall expire on October 1, 2021.”
